EDUCATION

Kamaraj College of Engineering and Technology

Bachelor of Engineering in Computer Science
CGPA: 8.5

2023 – 2027

PKN Girls Higher Secondary School

Higher Secondary – 81%
2022 – 2023

TECHNICAL SKILLS

- NumPy, Pandas, Statistics, Python, Machine Learning, Deep Learning, NLTK, GenAI, StreamLit, CLIP, OpenCV.
- HTML5, CSS, JavaScript, Java, Node.JS, React, Express.JS, MySQL, MongoDB, Git, GitHub, VS Code, Figma, Kaggle, HuggingFace, NotebookLM.

SOFT SKILLS

- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

LANGUAGES

- English: Fluent
- Tamil: Fluent

PROFILE SUMMARY

Ambitious Computer Science student passionate about Software Engineering and AI/ML, with hands-on experience in developing machine learning models, intelligent systems, and full-stack web applications through academic projects and internships. Strong problem-solving, analytical thinking, and software development skills with a passion for building practical real-world solutions.

KEY PROJECTS

Construction Site Viability and Lifespan Prediction

Developed an AI-driven platform for Construction Site feasibility analysis and structural lifespan prediction using geospatial data and ensemble Machine Learning models. 📌

Dual Prompt for Text to Image Matching

Developed a Dual-Prompt cross-modal retrieval system using the CLIP model to enable text-to-image and image-to-text matching. Implemented using PyTorch with OpenCV and NLTK for preprocessing.

Dual DB Query Architect

Designed an academic learning platform that teaches SQL and NoSQL concepts through a visual block-based interface, helping users understand database queries interactively. 📌

INTERNSHIP

Panith Innovations – AI/ML Intern - June 2025 (1 Month)

Completed a 1-month internship at Panith Innovations in association with Paruvathe Payir Sei, working on AI and Machine Learning projects.

Tarcin Robotics (AICTE) – Software Development Intern Dec 2025 – Feb 2026 (3 Months)

Worked as a Software Development Intern, contributing to development tasks and gaining practical experience in Software Development.

CERTIFICATIONS & WORKSHOPS

- Applied Generative AI Certification - Infosys.
- Comprehensive AI Creation & Innovation –Panith Innovations.
- Java Certification – Silicon Software Services.
- Full Stack Development - NoviTech R&D Private Limited.
- Network Essentials - Cisco Networking Academy.

ACHIEVEMENTS & PARTICIPATION

- Selected among the Top 20 Projects – TnWise Hackathon (Tamil Nadu Level) and Awarded ₹10,000 Special Cash Prize.
- Winner – Tech Challenge Hackathon (College Level Coding Competition)
- Selected Speaker – Machine Learning Workshop for Juniors
- Qualified for the Final Round – Buildathon Competition
